Progress means the act of going forward. Making any kind of progress can make us healthy and happy in life. By setting and actively working toward our goals, we can make progress in our life.

To make more progress in life, start looking at problems in a different way. Whatever happens, if we think positively (积极地), it can be useful and helpful. We need to know that problems are part of our life. After we solve problems one after another, we can make more progress and become stronger.

Having confidence is helpful for us to make progress. Confidence comes from different places, such as proper education, training or having good relationships. We should also stay with people who believe in our success and actively support us. These people can help push us toward progress.

Slow progress is still progress. Just as the old saying goes, "It doesn't matter how slowly you go as long as you don't stop." Progress usually comes a lot more slowly than we expect. Even if progress is slow, try not to be worried. One important thing is that we keep taking steps toward our goals, and another is that we clearly remember what our goals are all the time. The actual speed isn't important.

The road to progress is not always smooth. Most progress often comes with setbacks along the way. Sometimes, maybe it feels like we're taking one step forward and three steps back, but it won't always be like that. Keep going toward our goals and we can make the progress we want much more easily.

Progress doesn't always happen in a straight line. As long as we keep working, we will achieve higher levels.

36. What does progress make us do?

- A. Set lifelong goals.
- B. Go forward easily.
- C. Live healthily and happily.
- D. Think about new things.

37. What does Paragraph 3 tell us?

- A. We should support different people.
- B. Some people can push us to failure.
- C. Confidence helps us make progress.
- D. Different schools expect the same progress.

38. What does the writer say about slow progress?

- A. It often goes smoothly.
- B. It still means progress.
- C. It sometimes stops progress.
- D. It always gives us a clear mind.

39. Which word is close to the underlined word "setbacks"?

- A. Prizes.
- B. Advantages.
- C. Excuses.
- D. Difficulties.

40. Which can be a proper title for the text?
