Almost every day, we discuss the topic of health, especially for kids. But what is health?"Health"means eating well, getting enough exercise, and having a healthy weight. Let's read the following rules. They can help you stay healthy.

(1) Eat a variety of food, especially fruit and vegetables. We all know that eating fruit and vegetables can help us stay healthy, but many of us only eat our favorite food. Remember that we can only get the nutrition (营养) we need by eating different kinds of food, especially fruit and vegetables.

(2) Drink water and milk most often. Everyone knows that water is important. Besides that, kids need plenty of calcium (钙) to grow strong bones, and milk is rich in it. Every day, you should drink at least three cups of milk, when you are 9 years old or older. You should also try to have less sugary drinks, like soda and coca. They include a lot of sugar. Sugar only includes calories (热量), not important nutrition.

(3) Listen to your body. When you are eating, notice how your body feels. When your stomach feels comfortably full, stop eating. Eating too much makes you feel uncomfortable. If you do it too often, it can make you unhealthy and fat.

(4) Limit screen time. What's screen time? It's the amount of time you spend watching TV,movies and playing computer games. Do you do team projects at school? I do a lot. Of course, team activities aren't always easy. Here are some suggestions to make team work easier.

#### ★ Know the goals

Make sure everyone understands the goal of the project. If you're doing a class project, you need to check the teacher's instructions carefully and ask questions whenever something isn't clear. There's a popular saying: If you don't know where you're going, you probably won't get there.

#### ★ Assign(指派)roles

Everyone should have a role in the team. For example, there should be a leader who helps everyone make decisions. There might be a note-taker who writes down the team's ideas during meetings, and a time-keeper to control the time. There might also be a fact-checker or a group speaker.

#### ★ Divide the work

For large projects, the work can be divided into smaller tasks. Then you can choose tasks that you do well or enjoy. Of course, you shouldn't always do the same task. It's good to try new things, even if they're difficult!

#### ★ Make a plan

After you divide the work, write down a plan on paper. You can use a calendar to help you. List all the tasks and think about when each one must be finished. It's important for everyone to follow the plan. And if you can't finish your part on time, tell the others as soon as possible.
